

**BioScience Laboratories**, a leading CRO engaged in the independent efficacy and safety testing of disinfectants and topical antimicrobial formulations for healthcare and industrial applications, is seeking a **Study Director in our In-Vitro Laboratory**. As a small privately held enterprise located in Bozeman MT, you'll have the best of two worlds, influence and leadership within a high caliber, well regarded organization and access to the best of "Big Sky Country" with blue-ribbon trout streams, hiking and powder skiing just outside your door.

### **Job Purpose:**

Lead in-vitro studies from the development of protocols to scheduling; from testing to preparing a scientific final report. This job reports to our In-Vitro Laboratory Manager.

### **Core Responsibilities:**

1. Conduct project planning, resource allocation and scheduling.
2. Develop and write study protocols.
3. Support, train and guide technicians.
4. Assure proper execution of all protocols.
5. Evaluate data, prepare final reports and interpret findings.
6. Interact professionally with our sponsors/clients.

### **Required Background and Experience:**

1. Bachelor's degree in Microbiology or related field; advanced degree preferred.
2. Minimum of three years experience in laboratory environment; testing formulations for efficacy, a strong plus.
3. Experience in a GLP regulated laboratory environment (FDA, EPA, etc.) preferred.
4. Proven ability to work with scientific and non-scientific professionals in a collaborative environment
5. Able to work diverse studies concurrently.
6. Capacity to successfully communicate with and teach others.
7. Ability to evaluate methods and data and reach a clear decision.
8. Demonstrate superior technical writing.

BioScience Laboratories offers a wide array of competitive benefits seen in larger companies including full medical coverage, 401K and a bonus plan. Interested? Send your resume and cover letter to Ms. Deanna Field, Director of Human Resources at [dfield@biosciencelabs.com](mailto:dfield@biosciencelabs.com).
